President's Message

To the Seniors of 1955:

The year 2000 A.D. is just forty-five years away. These forty-five years will be the productive period of your life. No one knows what these years hold for you, your loved ones, and the peoples of the world. The state of the world in the year 2000 is unpredictable, but this we know. It will depend a great deal on what you and other graduates of colleges and schools throughout the world do with your lives.

You have the responsibility of leadership. You also have the responsibility to choose and follow good leaders. Through faith in God, through devotion to Christ, and through loyalty to your fellowman, there is personal satisfaction and hope for the future of mankind.

I wish you the greatest possible success and your full share of happiness.

Sincerely,

AR Burgesafi
