J. R. BURGESS, JR. . PRESIDENT

To the Graduates of 1958:

What can I say that will have the most meaning to you who will be going to senior college, into business, into the armed forces, and perhaps into other new phases of life's great adventure?

The Sputnik Age may not be as astonishing to you as it is to those of us who were born in the last years of the Horse and Buggy Age. However, I'm sure that you realize you are living in an age when our leaders have been forced to re-evaluate their thinking and their plans for defense. Perhaps they should also regardless of who were allies or enemies in the last great conflict.

We are unhappy about the use of troops in Little Rock and just as unhappy about those who preach hatred that leads to bombings and murders. Let us remember the millions in Africa, India, China, and other nations whose race is different from ours. Let us remember that "no man is an island" and no problem is the problem of one community or one nation alone.

In spite of the problems and worries that harass us, there is much good in this age of satellites. In fact, there is a possibility of very much more good than evil. You have a part in

For each of you I wish success and happiness in the years

Sincerely yours,

JRB:bj
