# Progress Demands Expansion

"We must rest our hopes and find our joys not in the things we have done, the heights we have already attained, but upon the powers of an endless growth."

John Carlisle Kilgo

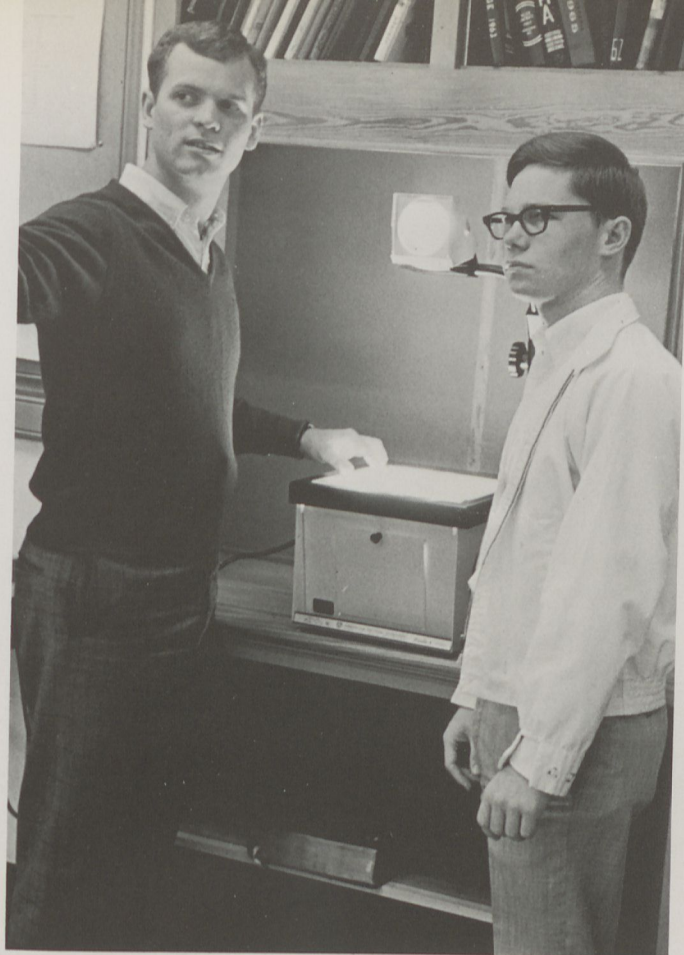

# Knowledge Invokes Exploration

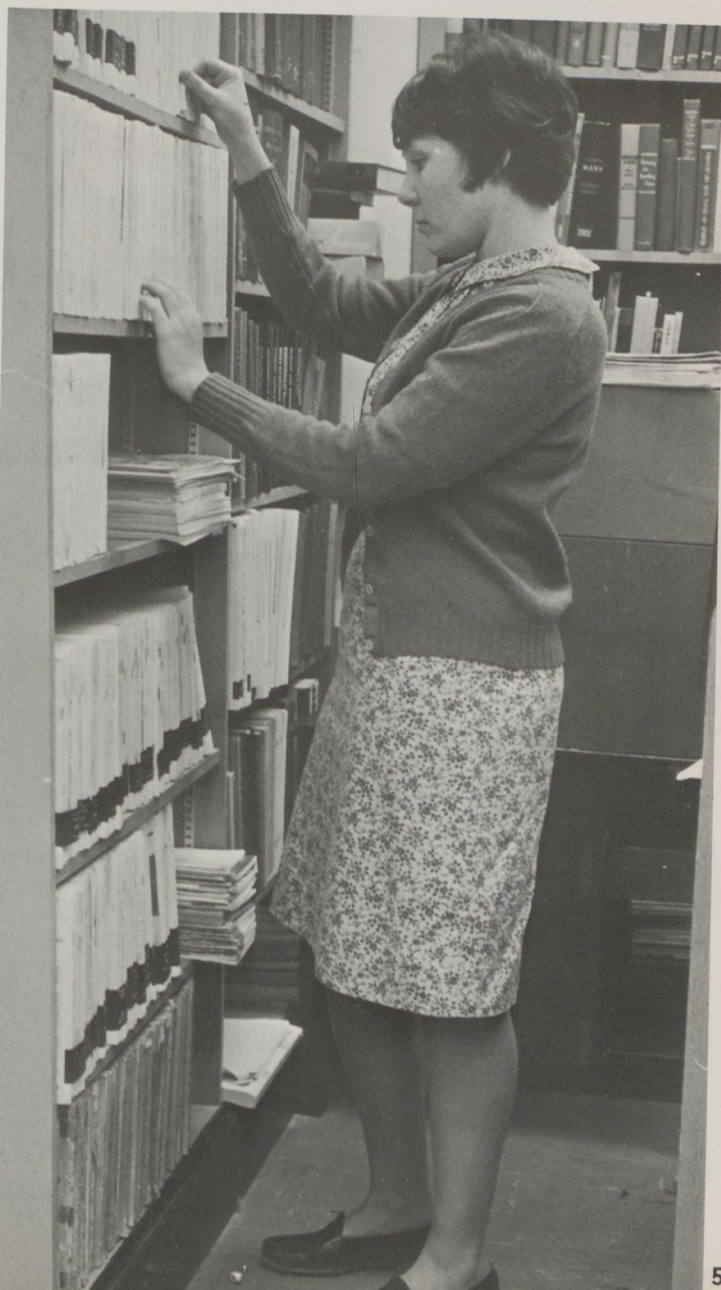

"We often think of ourselves as living in a world which no longer has any unexplored frontiers. We speak of pioneering as a thing of the past. But in doing so we forget that the greatest adventure of all still challenges us—what Mr. Justice Holmes called the 'adventure of the human mind.' Men may be hemmed in geographically, but every generation stands on the frontiers of the mind. In the world of ideas, there is always pioneering to be done, and it can be done by anyone who will use the equipment with which he is endowed. The great ideas belong to everyone."

Mortimer J. Adler

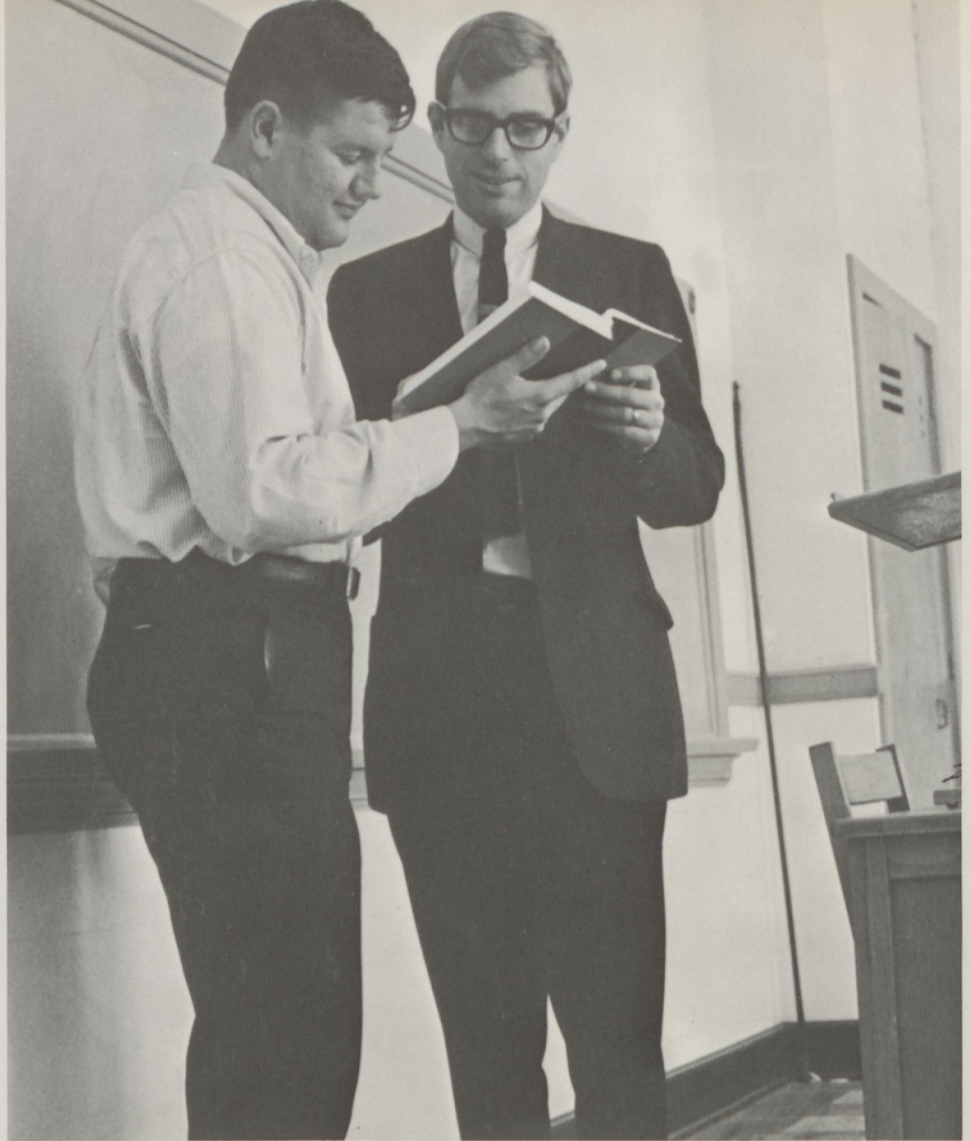

# Achievement Indicates Unity

"There are parts of a ship which taken by themselves would sink. The engine would sink. The propeller would sink. But when the parts of a ship are built together, they float. So with the events of my life. Some have been tragic. Some have been happy. But when they are built together, they form a craft that floats and is going someplace."

Ralph W. Sockman

# Self-Expression Promotes Growth

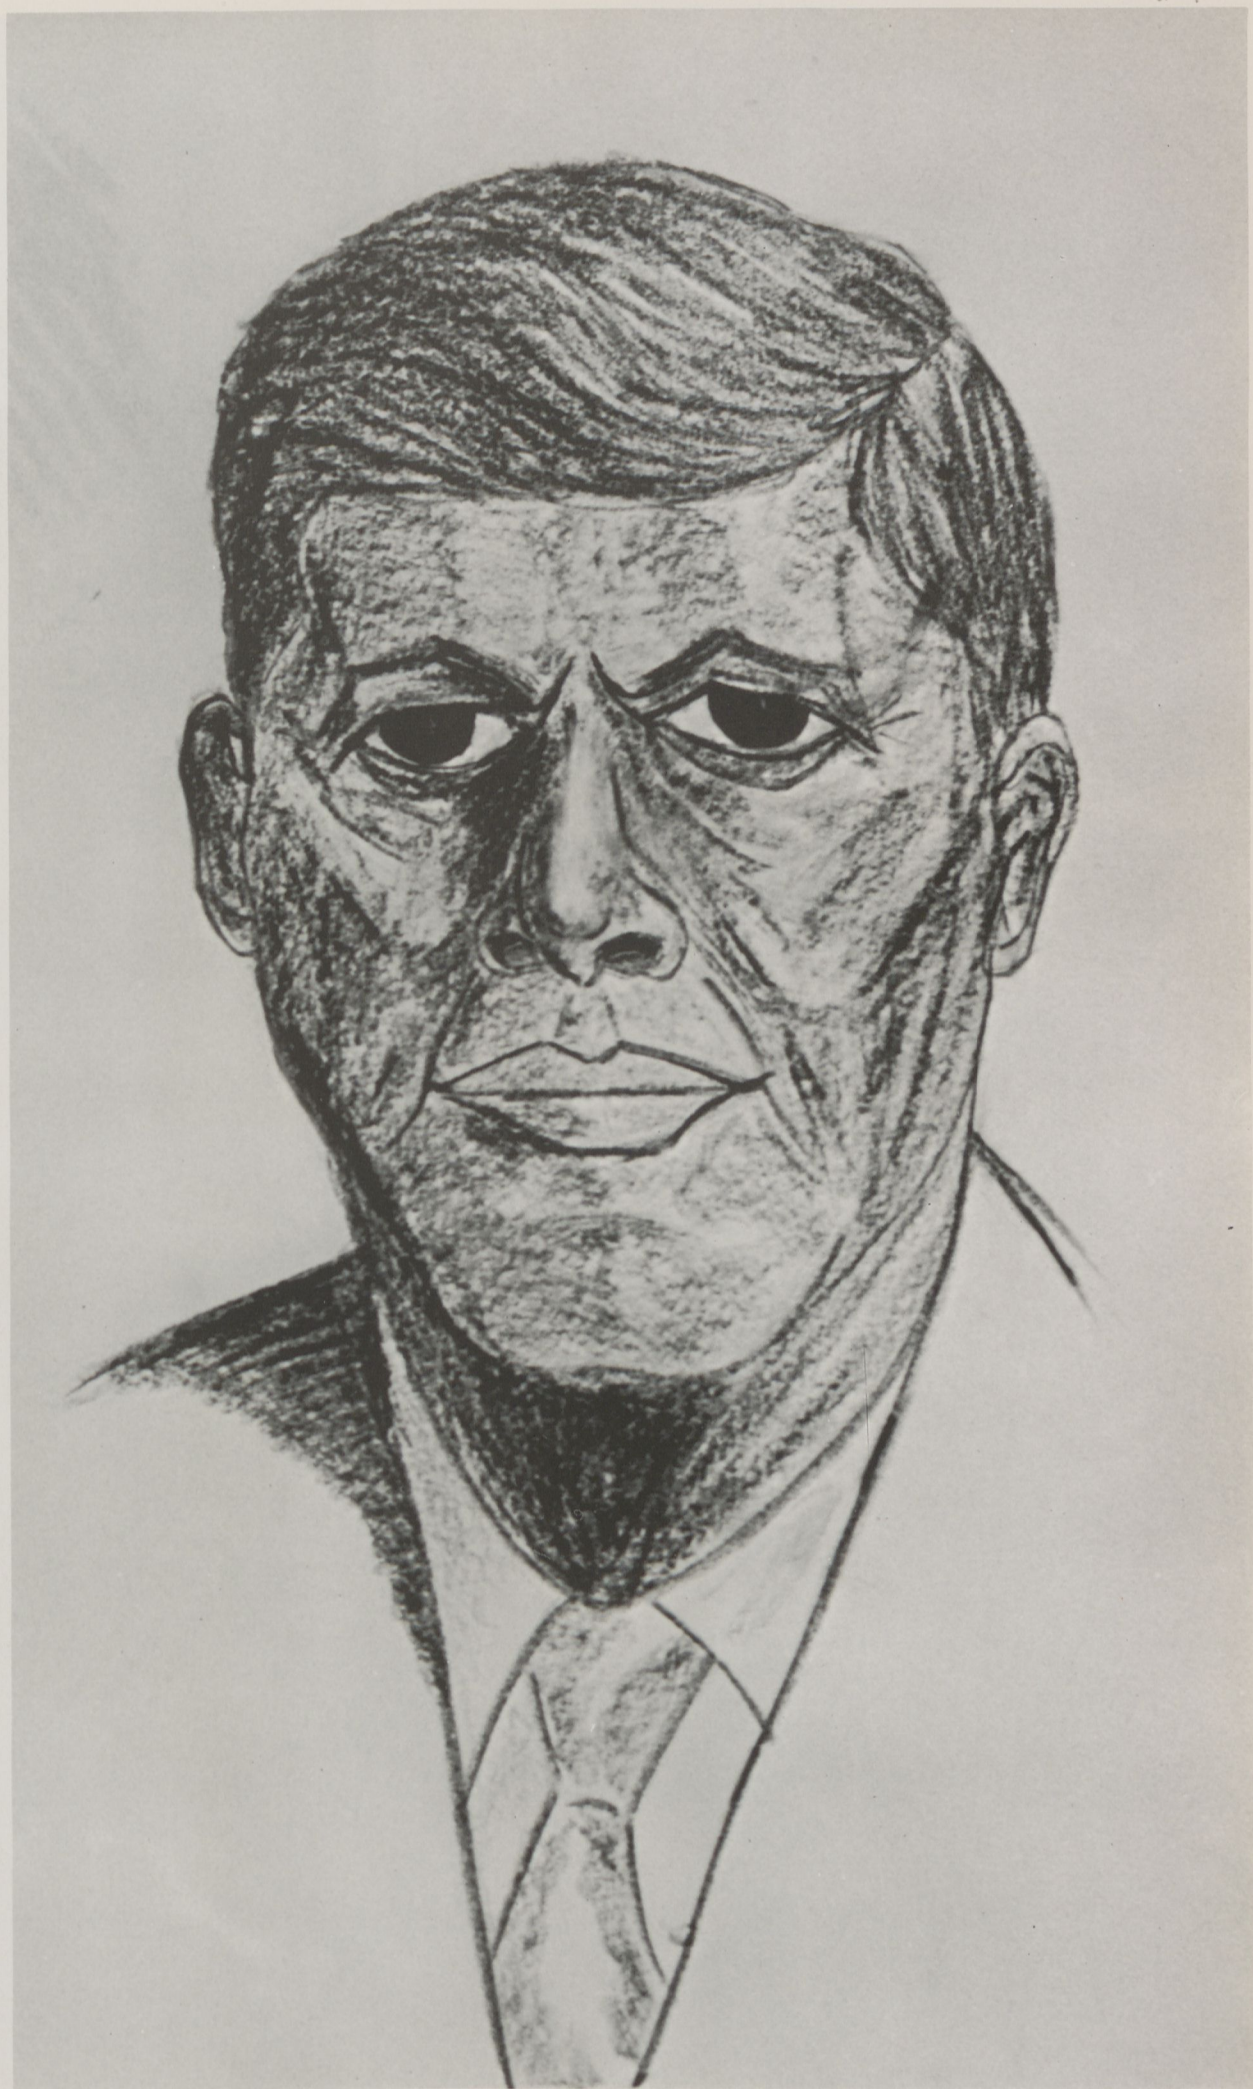

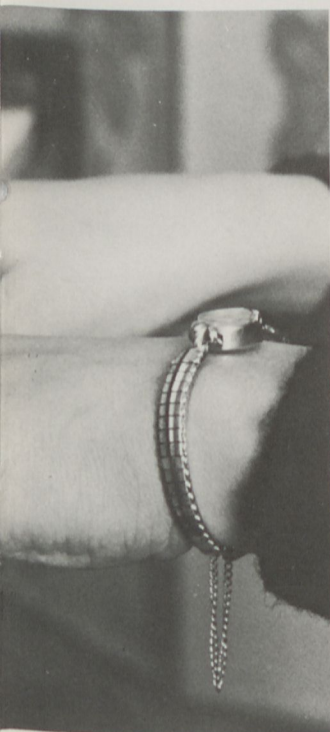

"In the struggle for self-realization a few men become artists. They learn the possibilities of the materials with which they deal: they put themselves into fruitful relations with the things which can nourish, the force which can inspire them. And they put forth the creative energy that is in them freely and continuously."

Mabie

To your profession and your students you have unselfishly devoted your time and efforts. By showing in your everyday life an exemplary love for your family and fellowmen, you have unknowingly gained our respect and admiration. You have been a friend who has always willingly listened to our problems and guided us. We feel that you have earned this tribute many times over by your concern for students, your devotion to Reinhardt, and your example of a Christian man.

It is with great pride and gratitude that, we, the annual staff, speak for all the students in dedicating the 1968 CHEROKEE PHOENIX to . . .

## Chapel And Assembly Speakers

I believe that attendance at weekly assembly and chapel services is a valuable means by which we accomplish something of our uniqueness at Reinhardt. Twice a week we are a community in a very specific and tangible way. It is one of our approaches to the formation, consolidation, and perpetuation of "community" on our campus that we hope will have a valuable influence on all Reinhardt graduates.

## ADMINISTRATION

PRESIDENT and MRS. BURGESS

To The Members Of The Class Of 1968:

Growth is never smooth or easy. It comes in spurts and levels off. It takes effort and sometimes pain. But growth is inevitable. When growth completely stops, death slowly begins.

In 1967, Reinhardt grew in quality of service and in planning. In 1968, we hope to see growth of the physical plant with two new dormitories and a new library under construction.

But the growth of Reinhardt has no meaning except as it contributes to the growth of individual students. My hope is that each of you will grow in wisdom, in stature, in confidence, in faith in God, and in concern for your fellowman.

Sincerely yours,

*J. R. Burgess*
