## Registration Guidelines

We are excited for your interest in registering for the 2023 Northwest Georgia Regional Science and Engineering Fair. Here we have laid out a few guidelines and suggestions to make your registration go smoothly.

First, registration is designed to be done all at one time with all information, files, and links submitted together through our registration link. The registration is much like a Google form submission.

Students must have the permission of the student's parent, legal guardian, or school official's consent before submitting materials for registration.

The registration fee of \$25 will also be due at the time of registration. Please have a credit or debit card available. Cherokee County School students will have their registration covered by their school system, so please indicate if you are a Cherokee County student when registering.

Here is a list of all the basic information that you will need to have on hand:
